Professional deal infrastructure for founders raising capital and investors leading rounds

Why SeedBlink

One platform. Complete lifecycle. Europe's venture standard.

The only integrated infrastructure

Not another point solution. Primary investments, secondaries, equity management, and deal coordination - all connected in one platform.

Built for European complexity

Cross-border by design. Investment vehicles that work across jurisdictions. EU-regulated and ESMA registered.

Battle-tested at scale

80M+ capital under administration. 200+ deals. Real infrastructure managing real capital across European markets.

Network effects you can't replicate

110,000+ members, 6,500+ companies. The ecosystem feeds itself - companies attract investors, investors discover companies.

SeedBlink Legal - By Andrei Hancu Law Office

Legal that's wired into every stage of the venture lifecycle

Not a standalone service - a legal practice structurally embedded in SeedBlink's infrastructure, built from 150+ deals inside the platform. Legal design principles and AI-powered workflows, serving founders and investors at every stage.
